Hornby Nursery Ltd.

2016

Wholesale Catalogue

WE ARE PLEASED TO PRESENT TO YOU OUR 2016 TRADE LIST

M. Putzer Hornby Nursery is proud to be a company that has a commitment to the future and to a better environment.

We set high standards and continually make improvements of our own.

Through every step in our operation our objective is quality.

Good nursery stock requires professional dedication.

It requires people with enduring pride in their work.

It is people of this type that you will come to know at M. Putzer Hornby Nursery.

People to whom the nursery is a profession, who care to contribute to the environment, and who spare nothing to grow nursery stock which meet the Putzers' own high standards.

The following statement, written by **John Putzer**, was our inside front cover of our 1972 wholesale price list:

Why you buy the best when you buy from us!

Our trees are grown by experienced Nurserymen, in fertile soil, and well spaced rows.

All our trees are fertilized and sprayed periodically, in order to keep them in the healthiest of conditions.

Trees are pruned individually to give them the best possible shape and compact forms.

Our nursery stock is many times transplanted for best development of fine fibrous root systems.

The soil at our Hornby location is excellent to produce a soil stringball.

We take pride in saying that we grow some of the best specimen stock for high class landscape work found anywhere in the area.

In 2016 we still stand by the above statement!

We thank you for your past patronage and look forward to serving you again.

We hope you have a successful and prosperous year.

Sincerely yours,

Putzer Nursery and Staff

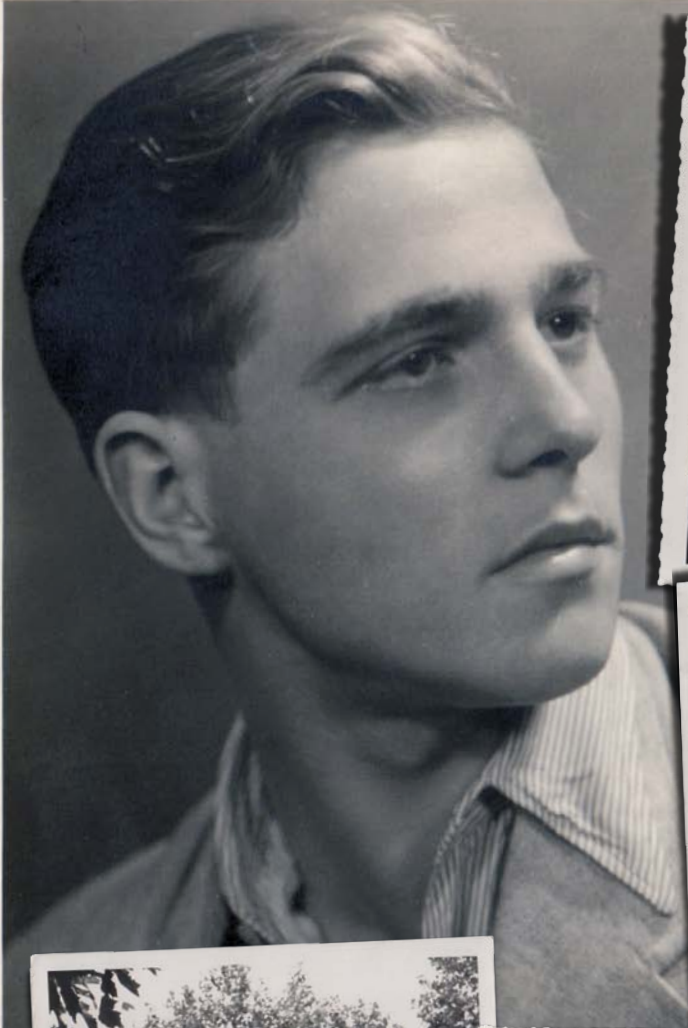

In dedication to John H. Putzer

Trees grow up from seed

The main difference between Putzer Hornby Nursery and other nurseries, according to

seed goes into the ground until it's sold.

"It's a complete cycle. A lot of nurseries will buy small plants and grow them. We start right from the seed."

The 250-acre nursery is on the Sixth Line in Milton, immediately south of the CPR line north of Derry Road.

On it, the Putzers grow an estimated 100,000 evergreens, 100,000 small deciduous trees, and about 50,000 bushes and shrubs. About 220 different varieties are grown.

Although the operation currently specializes in wholesale nursery work, there is a retail outlet on the premises this year for the first time.

Mr. Putzer's daughter Heidi operates it. It sells the same kind of plants the wholesale outlet deals with, but they're smaller in size.

Mr. Putzer said the difference is a home-owner would be primarily interested in trees of two or three inches in diameter. He said it would be easier for a homeowner to plant. The wholesale outlet

several provincial ministries.

Some trees are also shipped to the United States and Europe.

Mr. Putzer said the nursery does not carry flowers or smaller plants. He said the retail outlet will possibly be expanded next year to include fertilizers and pesticides. Right now, he said, there is no building space available for something that large on premises.

There are 15 full-time employees who deal with propagation, machinery work, and basic plant care. Summer help is sometimes added to the staff.

Mr. Putzer said the way he grows his trees is to let a newly-planted seedling grow for a year or two, then clip it near the base of the plant and graft in a seed from the plant.

The base of the plant has had two years' growth, and the seedling grows from there in a controlled environmental setting for another year or two, then is planted in a field and allowed to grow on its own.

BUDDING IS A KEY PART in the growing of a tree at Putzer Hornby Nursery. John Putzer checks one such tree which has been grown from its own bud implanted in the tree stalk.

...of soil types, but 90 percent of the rows in the top six of the soil, the soil in good condition must be well- but must have moisture-holding capacity. Generally, this it should be well with organic matter. John Putzer, proprietor of M. Putzer Hornby Nurseries Ltd.

tate this routine procedure. He is quite pleased with the results. His son, Bill, indicated to us that they can now fill 200 twenty-five gallon (95-L) containers with a crew of eight in a 10-hour day. 2-year slow-release fertilizer is incorporated in the potting mix.

At the pot growing site, the large container laid out in twin double rows, each (1.5 m) apart. The containers gered within each row at 3 to 4 1.2 m) spacing from each other low for machinery, there is 1 feet (2.4 m) and then another 7 feet. Presently about 4000 trees planted pot-in-pot. Because sunk in a light sandy loam good and there is no water-logging in the pots even after plenty of rainfall.

Beside taking the lead with this technique, John has also combined tree growing with a modern environmental waste utilization.

1. HGTV featured the television show, The Decorating Challenge. Two gardens were designed by LO member Heig Sullivan and membership coordinator Denis Flanagan. In photo, from left, nearly to begin one of the shows, are Scott Olson, show producer; Phil Collier (who works with Dennis Thomas with a donation of \$750, Chapter president Bill Beaupre, right, is shown presiding committee chair Bob Allen with the donation. Also shown as LO president is 1985. 3. The Ontario government awarded \$245,000 to help 25 young people in Peel, Halton and Dufferin Counties obtain skills and employment opportunities in the landscape and nursery industry. Presenting the cheque are from left, Brian Coburn, Minister of Agriculture, Food and Rural Affairs; Ted Chudleigh, MPP Halton; Terry Murphy, LO manager of education and training; Bill Dawson, CEO of Sheridan Nurseries; John Putzer of M. Putzer Horticultural Technicians certificate in recognition of his practical support of the CCHT program. He received the certificate from Harold Deavers, CCHT chair at Landscape Ontario's Annual General Meeting in Congress.

FARMER'S CREED

I believe a man's greatest possession is his dignity and that no calling bestows this more abundantly than farming.

I believe hard work and honest sweat are the building blocks of a person's character.

I believe that farming, despite its hardships and disappointments, is the most honest and honorable way a man can spend his days on this earth.

I believe farming nurtures the close family ties that make life rich in ways money can't buy.

I believe my children are learning values that will last a lifetime and can be learned in no other way.

I believe farming provides education for life and that no other occupation teaches so much about birth, growth and maturity in such a variety of ways.

I believe many of the best things in life are free: the splendor of a sunrise, the rapture of wide open spaces, the exhilarating sight of your land greening each spring.

I believe true happiness comes from watching your crops ripen in the field, your children grow tall in the sun, your whole family feel the pride that springs from their shared experience.

I believe that by my toil I am giving more to the world than I am taking from it, an honor that does not come to all men.

I believe my life will be measured ultimately by what I have done for my fellowmen, and by this standard I fear no judgment.

I believe when a man grows old and sums up his days, he should be able to stand tall and feel pride in the life he's lived.

**I BELIEVE IN FARMING
BECAUSE IT MAKES ALL THIS POSSIBLE**

PRICES

These prices are solely for the use of the Wholesale trade, and cancel all previous prices. All prices are quoted F.O.B. Hornby and Grand Valley and are subject to change without prior notice.

TERMS

Credit can only be established by a written credit application. For customers with established credit all invoices are net and payable in 30 days. Two percent interest per month (24% per annum) will be added to all overdue accounts. Interest charges will commence 61 days from invoice date. We reserve the right to refuse further credit if an account is not settled within above noted terms.

ORDERS

Orders are accepted subject to prior orders and crop conditions, and on condition that the same shall be void should injury befall our stock from causes beyond our control. All orders are accepted without liability for non-performance. Cancellations will not be accepted once an order has been assembled. All stock travels at the purchaser's risk and expense.

GRADING

All nursery stock is graded in accordance with the "Guide Specifications for Nursery Stock" set by the Canadian Nursery Trades Association.

GUARANTEE

We warrant that the nursery stock is true-to-name and is in a healthy condition when it leaves our nursery. We give no further warranty.

CLAIMS

Always count and inspect your nursery stock as soon as it arrives at your site. Report in writing discrepancies you are claiming. We will not entertain claims of any kind when a report is not received within three (3) days. Under no circumstances will we be liable for more than the purchase price. When your shipment arrives via Common Carrier report any damages to the Carrier, as well inform our office of the problems.

WE ACCEPT

Visa, MasterCard and Debit card at time of pick-up or delivery.

HARMONIZED SALES TAX

H.S.T. must be charged on all Canadian sales.

OUR SHIPPING YARD

We endeavor to maintain a full line of nursery stock throughout the season. Our staff is equipped to handle immediate pick-ups. For large or special orders, please call or fax ahead so that we may be able to assemble your order and save you waiting time.

When picking up plants in an open truck, please bring sufficient wind tarps to protect plant material from sun and wind damage in transit. If it is necessary for us to supply covering material it will be charged for at cost. Wind tarps may be purchased at the nursery if needed.

DELIVERY SERVICES

We can arrange for delivery via our trucks; Cube Van, Crane Truck or Tractor-Trailer. We can also arrange your delivery to be

shipped via Commercial Carrier. Commercial Carrier will be shipped Freight collect. Please call our office for shipping rates.

TAGGING OF PLANTS

Customers who wish to tag plants must advise the office. We will supply official tags and advise locations of plant material. All selected plants must be picked up within 15 days. After 15 days all tags will be removed and a maintenance charge will be applied.

ORDERED PLANT MATERIAL

Any trees ordered and dug not picked up by June 15 will be subject to a maintenance charge.

RESTOCKING CHARGES

Any plants returned for credit are subject to a minimum 10% restocking charge.

EVERGREENS

ABIES

Abies balsamea

Balsam Fir

[ht-20m spr-8m] Zones 4-9 ○▶

Native, slow growing deep green fir with a narrow-conical habit when young. Prefers well drained, acidic, moist soils. Very aromatic.

150 cm WB

175 cm WB

200 cm WB

Abies balsamea 'Nana'

Dwarf Balsam Fir

[ht-60cm spr-1m] Zones 4-9 ○▶

Very small globe shaped evergreen, dense dark green needles on horizontal spreading branches, useful in rock gardens or mixed borders.

Please call for availability and or price

Abies concolor

Silver Fir [ht-20m spr-4.5m] Zones 4-9 ○▶

A large specimen, conical in form with silvery-blue foliage, prefers gravely or sandy-loam sites. Likes full sun, but tolerates semi-shade, withstands drought well.

125 cm WB

150 cm WB

175 cm WB

200 cm WB

Larger sizes available

Abies koreana

'Hortsmann's Silberlocke'

Hortsmann's Silberlocke Korean Fir

[ht-4m spr-1.75m] Zones 4-9 ○

A unique variety of Korean Fir. Needles on branches curl back to reveal silver undersides, creating a nice contrast to the green tops. Makes a nice specimen upright silver tree, with purple cones.

100 cm C20

○ Full Sun ▶ Part Shade
● Full Shade

Abies lasiocarpa arizonica **'Glauca Compacta'**

Dwarf Rocky Mountain Fir

[ht-1.5m spr-1.5m] Zones 5-9 ○

Dwarf and compact, very slow growing. Striking silver blue needles with light almost white bark. Excellent for use as a small landscape feature, or in a larger rock garden.

Abies lasiocarpa 'Compacta'

Rocky Mountain Fir

[ht-2.5m spr-1m] Zones 5-9 ○

A slow growing fir, silvery blue needles, dwarf variety, conical in shape and densely branched.

150 cm WB

175 cm WB

CHAMAECYPARIS

Chamaecyparis nootkatensis **'Pendula'**

Weeping False Cypress

[ht-10m spr-6m] Zones 5-9 ○▶

Pyramidal form, drooping branches that drape from spreading up curved branches, foliage is a rich green. Outstanding graceful habit.

125 cm C15

150 cm C15

Chamaecyparis obtusa **'Gracilis'**

Hinoki False Cypress

[ht-4.5m spr-1.75m] Zones 4-9 ○

Noted for its open-branched, narrow pyramidal form and graceful weeping branches. Needles are deep green in colour, spring new growth is reddish. Excellent for specimen planting.

150 cm CG

Chamaecyparis obtusa ‘Crippsi’*Golden Hinoki False Cypress**[ht-3m spr-1.5m] Zones 4-9 ○*

Beautiful golden-yellow sprays of feathery foliage on frond-like branches makes this Cypress an outstanding accent plant.

C5

Chamaecyparis obtusa ‘Fernspray Gold’*Fernspray Gold Hinoki False Cypress**[ht-3m spr-1.5m] Zones 4-9 ▶*

This slender Hinoki Cypress features soft, lemon-yellow foliage that has an airy feather like appearance. This Cypress stands out in the winter against dark tones of evergreens and the bare limbs of deciduous plants.

C5

Chamaecyparis obtusa ‘Kosteri’*Koster’s Hinoki False Cypress**[ht-2m spr-1m] Zones 4-9 ○*

Dwarf form, develops unusual shape with age, has flat sprays of light green foliage, excellent for rock gardens or mixed borders.

C3

Chamaecyparis obtusa ‘Nana Gracilis’*Dwarf Hinoki False Cypress**[ht-1m spr-1m] Zones 5-9 ○▶*

Very popular form of the Slender Hinoki False Cypress, has an irregular rounded form developing an upright as it matures, dense rich green foliage holds its colour well all year. Very slow growing.

C3

Chamaecyparis pisifera ‘Boulevard’ Pom Pom*Pom Pom Boulevard False Cypress**[ht-2m spr-1m] Zones 4-9 ○▶*

Beautiful evergreen, has a narrow pyramidal form. Feather-like foliage is silvery blue-green in summer and turns grayish blue in winter. Excellent as a specimen. Protect from winter winds.

150 cm CG

Chamaecyparis pisifera ‘Filifera’*Threadleaf False Cypress**[ht-4m spr-4m] Zones 4b-9 ○▶*

The bright green thread-like foliage enhances the graceful mounding habit of this evergreen.

C3

Chamaecyparis pisifera ‘Filifera Nana Aurea’*Gold Dwarf Threadleaf False Cypress**[ht-1m spr-1m] Zones 4b-9 ○*

Mounding cypress, golden colour, thread-like foliage.

C3

Chamaecyparis pisifera ‘Filifera Aurea’*Gold Threadleaf False Cypress**[ht-4m spr-4m] Zones 4b-9 ○▶*

Hardy mounding plant of deep gold thread-like foliage.

Beautiful orange red blooms in late spring. Fall foliage colour is burgundy. Prefers moist acid soils.

Azalea 'Weston's Lollipop'**[ht-125cm spr-150cm] Zones 5-9** ○▶

Blooms are pink, light pink with a yellow flare. Fall foliage is red to orange. Slow growing, blooms in early summer, prefers moist acid soil.

Azalea 'Weston's Popsicle'**[ht-125cm spr-150cm] Zones 5-9** ○▶

Orange pink flowers blooming in June, green shiny foliage turns burgundy in the fall, needs partial sun, well drained soil.

C2

RHODODENDRON

Rhododendrons have long been mainstays of late spring because of their spectacular clusters of showy blooms and large green leaves that often last through winter. With thousands of varieties, there are rhododendrons for just about every landscape situation. There are low-growing Rhododendrons as well as plants that can grow up to 25 feet tall. Though most plants flower in the spring, there are also summer-blooming varieties that add color and charm to the garden.

Rhododendron**[ht-1m spr-1m] Zones 6-9** ▶

Rhododendrons grow and bloom well in half-day or dappled sun light, soil should be moist and slightly acid.

Fagus sylvatica

European Beech

[ht-20m spr-12m] Zones 5-9 ○▶

Broadly pyramidal to oval form, dark green glossy foliage, silvery-gray bark, fall colour is bronze and foliage remains on during the winter months.

Fagus sylvatica ‘Asplenifolia’

Fern Leaved Beech

[ht-20m spr-10m] Zones 5-9 ○

Slow growing, low branching and densely pyramidal in form, has dark green fern like foliage that turns a golden brown in the fall.

Fagus sylvatica ‘Dawyckii’

Dawyck’s Beech

[ht-12m spr-3m] Zones 6-9 ○

Deep green foliage, narrow pyramidal form, excellent for large hedges or specimen.

Fagus sylvatica ‘Dawyckii Gold’

Dawyck’s Gold Beech

[ht-12m spr-4m] Zones 5-9 ○

Narrow upright, golden foliage in the spring, gold-green in summer, use for large hedges or specimen.

Fagus sylvatica

‘Dawyckii Purple’

Dawyck’s Purple Beech

[ht-12m spr-3.5m] Zones 6-9 ○

Narrow upright, purple foliage spring to summer, fall colour is bronze, excellent as an accent specimen.

Fagus sylvatica ‘Pendula’

Weeping Beech

[ht-15m spr-10m] Zones 5-9 ○

Gracefully weeping branches on an irregular ascending central trunk, branches hang to the ground, foliage is dark glossy green.

○ Full Sun ▶ Part Shade
● Full Shade

Fagus sylvatica ‘Purple Fountain’

Purple Fountain Beech

[ht-6m spr-4m] Zones 6-9 ○

Weeping branches drape from an upright leader, slow growing, foliage is purple to purple red. Good choice for smaller gardens.

Fagus sylvatica ‘Purpurea’

European Copper Beech

[ht-13m spr-8m] Zone 5-9 ○

Known for its smooth gray bark and leaves that go from purple in spring to copper coloured in summer.

Fagus sylvatica ‘Red Obelisk’

Red Obelisk Beech

[ht-12m spr-4m] Zones 4-9 ○

Bronze red foliage, form is narrow and upright, excellent as an accent specimen.

Fagus sylvatica ‘Riversii’

River’s Purple Beech

[ht-12m spr-7m] Zones 5-9 ○

Broadly oval in form, foliage is deep purple in the spring and holds a good purple-bronze colour throughout the summer, silvery gray bark adds winter interest.

Fagus sylvatica ‘Rohanni’

Purple Oak Leaf Beech

[ht-12m spr-6m] Zones 6-9 ○

Strong upright habit, Silvery furry blossoms in the spring followed by waxy-fringed purple oak shaped leaves. Foliage turns a coppery or bronze colour in the fall.

Fagus sylvatica ‘Spaethiana’

Spaeth’s Purple Beech

[ht-25m spr-16m] Zones 5-9 ○

Has an upright open habit, horizontal branching, waxy glossy purple leaves retain their colour through the summer.

Fagus sylvatica Rosea-Marginata

Tricolour Beech

[ht-12.5m spr-8m] Zones 6-9 ○

Oval in shape this beech has copper coloured leaves edged with pink and white, fall colour golden brown. A specimen for any garden.

HYDRANGEA STANDARD

Hydrangea paniculata 'Grandiflora' Std

Peegee Hydrangea Standard
/ Zones 3-9 ○

A small tree with large pointed white blooms in early August, fading to pink in the fall.

Hydrangea paniculata 'Kyushu' Std

Snow Mountain Hydrangea Standard
/ Zones 3-9 ○

A selection of 'Kyushu', bears glossy green leaves, large full white flower heads in July.

Hydrangea paniculata 'Limelight' Std

Limelight Hydrangea Standard
/ Zones 3-9 ○

Unique light lime coloured blooms in late July changing to rich deep pink in the fall.

Hydrangea paniculata 'Mega Mindy' Std

Mega Mindy Hydrangea Standard
/ Zones 3-9 ○

This fantastic recently introduced Hydrangea develops into a sturdy fast growing deciduous standard with broad deep green veined leaves and strong compact branches that proudly uphold a marvelous action-packed floral display. Large conical heads, emerging pure white and gradually broadcasting rosy red shades in late summer.

Hydrangea paniculata 'Phantom' Std

Phantom Hydrangea Standard
/ Zones 3-9 ○●

This standard produces massive dense conical flowers clusters at the ends of the branches, which are up to 15" in diameter. In the summer flowers are pure white fading to pink as the fall arrives. The sturdy stems help the large flower heads from flopping when wet.

Hydrangea paniculata 'Pink Diamond' Std

Pink Diamond Hydrangea Standard
/ Zones 3-9 ○

Blooms open a light pink colour, darkening as the season progresses.

Hydrangea paniculata 'Quick Fire' Std

Quick Fire Hydrangea Standard
/ Zones 3-9 ○

Large white pyramidal flowers, open white, fade to pink and mature to red as the season progresses.

Hydrangea paniculata 'Tardiva'

Tardiva Hydrangea Standard
/ Zones 4-9 ○

Large pointed white flowers heads in summer, that fade to pink in fall.

175 cm C15 - Specimen

200 cm C20 - Specimen

Acer palmatum 'Shaina'

Shaina Japanese Maple

[ht-2.5m spr-2.5m] Zones 5-9 ○▶

A popular compact tree with small, deeply cut leaves that remain close to the branches. Leaves begin a bright red and mature to deep-reddish purple and magenta in the fall. Upright and densely branched Japanese Maple.

C5

Acer palmatum 'Sharp's Pygmy'

Sharp's Pygmy Japanese Maple

[ht-1m spr-1m] Zones 5-9 ○▶

A dwarf tree with very compact growth. Small serrated, green leaves turn brilliant yellow and scarlet-orange in the fall.

C5

Acer palmatum 'Shishigashira'

Lions Head Japanese Maple

[ht-4.5m spr-3m] Zones 5-9 ○▶

This Japanese maple has small bright green leaves that curl tightly against the branches. Densely packed leaves create a striking appearance on the dwarf, upright tree which turns brilliant gold with some red and pink shades in the fall. Slow growing.

C5

All container grown Japanese Maples are grown in our pot-in-pot field for a minimum of one year.

Acer palmatum 'Tsuma-gaki'

Tsuma-gaki Japanese Maple

[ht-2.5m spr-2.5m] Zones 5-9 ○▶

The new growth on this tree is fantastic. Large leaves begin with deep red margins and lobe tips surrounding a pale cream or soft yellow green center. As they age the leaves become a chartreuse-green with reddish-purple tips. Fall colour is crimson.

CG

Acer palmatum 'Twombly's Red'

Twombly's Red Japanese Maple

[ht-3m spr-1.5m] Zones 5-9 ○

Upright columnar habit, will widen some with age. New leaves appear crimson red then quickly darken to burgundy. Fall color is a spectacular red and the dark red stems of the last new growth even add interest to the winter landscape.

C5.

Acer palmatum dissectum 'Baby Lace'

Baby Lace Japanese Maple

[ht-1.25m spr-1.25m] Zones 5-9 ○▶

Small very finely dissected leaves emerge a pinkish red fading to a bronze-green. Fall colour is more reddish with hints of pink and orange. A delicate looking maple as leaves have an airy, spider-like appearance. Remain quite dwarf in size.

C5

Acer palmatum dissectum 'Crimson Queen'

Cutleaf Crimson Queen Japanese Maple

[ht-3m spr-2m] Zones 6-9 ○▶

Weeping shrub like form, bright red leaves on cascading branches with graceful habit, considered the ultimate garden specimen.

125 cm CG - Specimen

150 cm CG - Specimen

Acer palmatum dissectum 'Garnet'

Cutleaf Garnet Japanese Maple

[ht-3m spr-2m] Zones 5-9 ○▶

Leaves are dark wine-red. Withstands drought well. Vigorous grower. Spreading to 4' in 10 years.

125 cm CG - Specimen
150 cm CG - Specimen

Acer palmatum dissectum 'Inabe Shidare'

Cutleaf Inabe Shidare Japanese Maple

[ht-2.5m spr-2m] Zones 5-9 ○▶

Fast growing, weeping form, which hold its purple foliage well into the summer.

C10
125 cm CG - Specimen
150 cm CG - Specimen

Acer palmatum dissectum 'Orangeola'

Orangeola Cutleaf Japanese Maple

[ht-2.5m spr-2.5m) Zones 5-9 ○▶

Leaves emerge an orange-red then fade to a dark red. Heavy shade encourages a deeper green cast. It is a beautiful effect enhanced by leaves that are a bit more glossy than most of the reddish-purple varieties. Bright red-orange in the fall in a long lasting vibrant display.

C15

Acer palmatum dissectum 'Red Dragon'

Red Dragon Cutleaf Japanese Maple

[ht-1.5m spr-1.5m] Zones 5-9 ○▶

Beautiful purple leaves are deeply dissected for an attractive lacy texture. Fall foliage is bright apple red. Stunning focal point or accent for lightly shaded locations. Grows slowly and gracefully.

125 cm CG

○ Full Sun ▶ Part Shade
● Full Shade

Acer palmatum dissectum 'Seiryu'

Seiryu Cutleaf Japanese Maple

[ht-7.5m spr-4.5m] Zones 5-9 ○▶

A very attractive upright growing form with small, lacy green leaves until fall when leaves turn red and gold with tones of purple.

C15

Acer palmatum dissectum 'Tamukeyama'

Tamukeyama Cutleaf Japanese Maple

[ht-3m spr-3.5m] Zones 5-9 ▶

This Japanese Maple has a mounding habit with waxy deep red bark and graceful cascading branches. Deeply cut and dissected purple-red foliage during the summer, changing to a bright red in the fall.

C3

Acer palmatum dissectum 'Waterfall'

Cutleaf Waterfall Japanese Maple

[ht-4m spr-4m] Zones 6-9 ○▶

Weeping form, foliage is bright green turning to brilliant gold with crimson streaks in the fall.

C3

You can purchase one
at the nursery

AESCULUS

Aesculus parviflora

Bottlebrush Buckeye

[ht-3m spr-8m] Zones 5-9 ○▶

An excellent lawn specimen with large spiked white flowers. Suitable for a variety of soils. Good drought tolerance.

60 cm C3

80 cm C3

AMELANCHIER

FOR TREE FORM PLEASE SEE PAGE 33

Amelanchier alnifolia

Saskatoon Serviceberry

[ht-4.5m spr-2m] Zones 5-9 ○▶

Native, masses of white flowers in the spring, fall colouring of the leaves can be a striking orange red sunset colour in the fall which makes it extremely attractive for ornamental uses. The fruit is attractive to songbirds. Great for shaded stream banks and pond sites.

Amelanchier alnifolia 'Obelisk'

Obelisk Saskatoon Serviceberry

[ht-4.5m spr-2m] Zones 5-9 ○▶

Slender upright shape, masses of white flowers in the spring, dark green summer foliage, fall colour is yellow. Has an abundance of deep purple berries in late spring. Berries are good for fresh eating, making jams and jellies.

Amelanchier canadensis

Shadblow Serviceberry

[ht-7m spr-3m] Zones 4-9 ○▶

Covered with masses of white flowers in early spring, red-purple edible fruit, fall foliage can be either flaming red, orange or yellow.

Amelanchier grandiflora

Apple Serviceberry

[ht-7m spr-5m] Zones 4-9 ○▶

Small white flowers from pink buds in spring, sweet berries turn magenta to purple, fall colour is yellow to orange.

Amelanchier grandiflora 'Princess Diana'

Princess Diana Serviceberry

[ht-7m spr-5m] Zones 4-9 ○▶

Masses of white flowers in spring, edible purple blue fruit, excellent red fall colour.

ARONIA

Aronia arbutifolia **'Brilliantissima'**

Brilliant Red Chokeberry

[ht-2m spr-2m] Zone 2-9 ○▶

Spring blooms are clear white and produced in clusters, summer foliage is glossy green, fall colour is brilliant red coupled with large, glossy red berries in the winter, best in full sun, will grow in part shade with limited fruit.

Aronia melanocarpa

Black Chokeberry

[ht-1.75m spr-1.75m] Zones 2b-9 ○▶

Native, mid size shrub with glossy green foliage, flowers white in May followed by black fruit that persist into the winter months.

Aronia melanocarpa elata

Glossy Black Chokeberry

[ht-2m spr-3m] Zones 2b-9 ○▶

Excellent ornamental features. Group or mass in shrub borders, small gardens or open woodland areas. Ability to withstand wet conditions makes it suitable for growing on the margins of ponds or streams.

Excellent addition to naturalized areas. Can be used as a screen or hedge.

Aronia melanocarpa 'Viking'

Viking Chokeberry

[ht-2m spr-2m] Zones 2-9 ○▶

A large fruiting variety, with white flowers followed by black fruit, that persist into the winter months.

BERBERIS

Berberis thunbergii **'Cherry Bomb'**

Cherry Bomb Barberry

[ht-1m spr-1m] Zones 5-9 ○

Compact crimson branches make this slow growing shrub an attractive variety for accents or hedging. Bright red berries add fall and winter colour. Deciduous.

C3

Berberis thunbergii 'Concorde'

Concorde Barberry

[ht-50cm spr-50cm] Zones 4-9 ○

Dwarf form with rich, deep purple foliage. Yellow flowers and bright red fruit appear on this rust free variety.

C3

Berberis thunbergii **'Crimson Pygmy'**

Crimson Pygmy Barberry

[ht-80cm spr-125cm] Zones 5-9 ○

The shrub is characterized by dark red leaves tinged with bronze, spiny stems, and waxy, yellowish, orange or red flowers that give way to red berries in the summer.

C3

Berberis thunbergii **'Golden Nugget'**

Golden Nugget Barberry

[ht-30cm spr-30cm] Zones 5-9 ○

A rare golden form of the barberry species. The dwarf habit lends itself well for use in borders. Deciduous.

C3

Berberis thunbergii 'Rose Glow'

Rose Glow Barberry

[ht-1.5m spr-1m] Zones 5-9 ○

Distinctive leaf colouration for this plant is deep rose-red over mottled white and green in spring. Slow growing. Deciduous.

C3

Berberis thunbergii **'Royal Burgundy'**

Royal Burgundy Barberry

[ht-60cm spr-1m] Zones 5-9 ○

This dwarf plant has a superior purple-leaf colour and a rounded form with a feathery texture.

C3

Berberis thunbergii **'Royal Cloak'**

Royal Cloak Barberry

[ht-1.25m spr-1.25m] Zones 5-9 ○

'Royal Cloak' is a barberry cultivar that is noted for its upright, arching growth habit and large reddish-purple leaves. Tiny, yellowish flowers appear from late April to early May, glossy, bright red berries form in the fall and often last into the winter well after leaf drop.

C3

Berberis thunbergii **'Ruby Carousel'**

Ruby Carousel Barberry

[ht-1m spr-1m] Zones 3-9 ○

Has attractive brick red foliage throughout the season. The small oval leaves turn an outstanding red in the fall. It has clusters of yellow flowers in mid spring, the fruits are showy red from early to late fall.

C3

Berberis thunbergii **'Sunsation'**

Sunsation Barberry

[ht-1.5m spr-1m] Zones 4 ○

A golden barberry in a compact form. Golden foliage with an orange cast most the season.

C3

We carry many more varieties not listed in our catalogue. Call to check our availability.

BUDDLEIA

Buddleia davidii

Butterfly Bush

[ht-1.5m spr-1.5m] Zones 5-9 ○

Semi-herbaceous shrub with long spikes of flowers in August that attract butterflies. Butterfly bush should be cut back each spring.

- **'Empire Blue'**

Blue

- **'Fascination'**

Lilac-pink, fragrant

- **'Ile de France'**

Dark purplish-blue

- **'Royal Red'**

Violet-red

- **'White Profusion'**

Pure white

CORNUS

Cornus alba 'Elegantissima'

Silverleaf Dogwood

[ht-2m spr-1.5m] Zones 2-9 ○▶

Has variegated silver and green foliage, fragrant flowers, fall colouring is apricot, gold and rosy red, bright red stems for winter interest.

Cornus alba 'Gouchaultii'

Mottled Tatarian Dogwood

[ht-2m spr-2m] Zones 3-9 ○

Colourful foliage with mottled yellow, pink, red and yellowish-white, red stems add winter interest.

Cornus alba 'Little Rebel'

Little Rebel Dogwood

[ht-1m spr-1m] Zones 3-9 ○▶

This extremely hardy dogwood offers crisp green foliage all season on a naturally compact, rounded form. Vibrant burgundy fall colours, striking red stems all winter long. Improved winter hardiness and multi-season interest.

Cornus alba Spaethi

Spaeth tatarian Dogwood

[ht-2m spr-2m] Zones 3-9 ○▶

This dogwood has dark green leaves with golden-yellow margins, red bark adds fantastic ornamental value in winter time.

Cornus alba 'Sibirica'

Siberian Dogwood

[ht-2.5m spr-1.5m] Zones 2-9 ○▶

Bright coral-red bark, good for shade, winter interest. Grows in a wide range of soil types.

Cornus alba 'Strawberry Daquiri'

Strawberry Daquiri Dogwood

[ht-1.75m spr-1.75m] Zones 3-9 ○▶

Strawberry Daquiri Dogwood has attractive green foliage edged in creamy white throughout the season. The pointy leaves are ornamentally significant and turn an outstanding red in the fall. It has clusters of buttery yellow flowers at the ends of the branches in late spring. It produces powder blue berries in mid summer. The red branches are extremely showy and add significant winter interest.

Cornus alba 'Ivory Halo'

Ivory Halo Dogwood

[ht-1.5m spr-1m] Zones 3-9 ○▶

A compact selection of the Silverleaf Dogwood, has variegated foliage, red stems for winter interest.

HYDRANGEA

FOR TREE FORM PLEASE SEE PAGE 41

Hydrangea arborescens

'Abetwo'

Incrediball Smooth Hydrangea

[ht-1.5m spr-1.25m] Zones 3-9 ○◐

An improved version of Annabelle, produces large full flower heads from summer until frost. Very strong stems hold the blooms upright even if soaked with rain.

C3

Hydrangea arborescens

'Annabelle'

Annabelle Hydrangea

[ht-1.5m spr-1.5m] Zones 2b-9 ○●

Pure white blooms up to 12" across, strong straight stems hold the blooms well, blooms from mid summer until frost.

C3

Hydrangea arborescens

'Invincibelle Spirit'

Invincibelle Spirit Hydrangea

[ht-1m spr-1m] Zones 4-9 ○◐

Rich pink flowers bloom from early summer to frost. Dark pink buds open to hot pink flowers which then turn soft pink as they mature, finally changing to green at the end of their life cycle. Very hardy. Reliable bloomer.

C3

Hydrangea macrophylla

Macrophylla Hydrangea

Hydrangea macrophylla 'City Line' Series

Smaller sized everblooming hydrangeas, with long lasting flowers. Mildew resistant and compact. Soil Ph affects the bloom colour.

PROVEN WINNERS

Hydrangea macrophylla

Mars

[ht-1m spr-1m] Zones 5-9 ○

Distinctive variegated mophead flowers range from deep indigo-blue to magenta-pink. The long-lasting blooms age to an attractive green as they age. Like other Cityline hydrangeas, Mars is a dwarf plant that does not need pruning to stay nice and compact. Use it as a foundation plant, or as a show-stopping specimen in a container garden. The glossy green foliage is very mildew-resistant.

C3

Hydrangea macrophylla

Rio

[ht-1m spr-1m] Zones 5-9 ○

A small to medium, early blooming selection with large flowers that range from strong blue to purple depending on the soil; add aluminum sulfate to the soil to encourage blue flower color. The blooms are large and long lasting. This plant has excellent mildew resistance, and makes a great container plant. Like the other Cityline hydrangeas, Rio is compact so it does not need pruning. It's perfect for foundation plantings.

C3

Hydrangea paniculata 'Bobo'

Bobo Hydrangea

[ht-1m spr-1m] Zones 3-9 ○▶

Loads of large white flowers on this small plant. In the fall flowers turn pinkish. An asset to any garden with limited space. This small hydrangea is also a great for container plantings.

PROVEN WINNERS

C3

Hydrangea paniculata 'Bombshell'

Bombshell Hydrangea

[ht-1m spr-1.25m] Zones 3-9 ○

A dwarf form that is well branched producing an abundance of white flowers from Summer to Fall. Little if any pruning is required to maintain its shape.

C3

Hydrangea paniculata 'Grandiflora'

Peegee Hydrangea

[ht-3m spr-3m] Zones 4-9 ▶

Large arching shrubs, flower in August with white blooms, bronzy-pink later in the season.

40 cm C3

50 cm C3

60 cm C3

80 cm C3

Hydrangea paniculata 'Quick Fire'

Quick Fire Hydrangea

[ht-2m spr-2m] Zones 3-9 ▶

Large white pyramidal flowers that change to pink and mature to red as the season progresses.

C3

Hydrangea paniculata 'Little Quick Fire'

Little Quick Fire Hydrangea

[ht-1.25m spr-1.25m] Zones 3-9 ▶

Like Quick Fire, it is early blooming, flowering about a month before other hydrangeas. White flowers transform to pink-red as summer progresses. This dwarf plant fits easily into any landscape, including container gardens.

C3

PROVEN WINNERS AND OTHER SPECIALITY HYDRANGEAS

Hydrangea macrophylla 'Bailmer'

Endless Summer macrophylla Hydrangea

[ht-1.5m spr 1.5m] Zones 6-9 ▶●

Clear blue mop head blooms turn pink in alkaline soils, foliage is mildew resistant.

PROVEN WINNERS

C3

Hydrangea macrophylla 'Blushing Bride'

Endless Summer Blushing Bride Hydrangea

[ht-1.5m spr-1.5m] Zones 6-9 ▶●

spent flowers for repeat blooms.

PROVEN WINNERS

C3

Hydrangea macrophylla 'Double Delights Star Gazer'

Star Gazer Hydrangea

[ht-1m spr-1m] Zones 5-9 ▶

This reblooming lacecap hybrid has large flowers with mauve-blue or pink centers and white picotee edges. Compact habit requires less pruning, making this a low-maintenance selection. Suitable for the shade garden or as a container plant; mildew-resistant.

C3

Hydrangea macrophylla 'Double Delights Wedding Gown'

Wedding Gown Hydrangea

[ht-1m spr-1m] Zones 5-9 ▶

Beautiful white double blooms against dark green foliage. Strong stems hold flowers upright. Lacecap hydrangea with a compact habit; requires less pruning, very low-maintenance. Suitable for the shade garden or as a container plant. Suitable for the shade garden or as a container plant.

C3

Hydrangea macrophylla 'Horwack'

Pistachio Hydrangea

[ht-1m spr-1.5] Zones 5-9 ▶●

This hydrangea blooms on both old and new wood, large blooms of mop head flowers open green tinged with chartreuse but as they mature the center of each flower turns scarlet red to violet with a small blue eye.

C3

Hydrangea macrophylla 'Snow Storm'

Snow Storm Hydrangea

[ht-1.25m spr-1.5m] Zones 5-9 ▶●

Early flowering variety that reblooms until frost. This hydrangea has mop head pure white flowers set against dark green foliage. Group or mass planting will make this hydrangea a show stopper.

C3

Hydrangea paniculata 'Jane'

Little Lime Hydrangea

[ht-1m spr-1m] Zones 3-9 ▶

Dwarf form of Limelight, beautiful lime green flowers that fade to white with hues of pink during late Summer/Early Fall. Grows to about one third the size of Limelight. Great for smaller size gardens.

PROVEN WINNERS

C2
C3

Hydrangea paniculata 'Limelight'

Limelight Hydrangea

[ht-2m spr-2m] Zones 3-9 ▶

Beautiful lime green flowers that fade to white with hues of pink as the season progresses.

PROVEN WINNERS

C2
C3

Hydrangea paniculata 'Renhy'

Vanilla Strawberry Hydrangea

[ht-2m spr-1.5m] Zones 4-9 ▶

Habit is upright in early summer changing to cascading as summer progresses due to the added weight of the flowers. In late summer flowers open white, change to pink and finally mature to pinkish-red. This strawberry red flower colour will typically be retained for 3-4 weeks.

C3

Hydrangea paniculata 'Wim's Red'

Fire and Ice Hydrangea

[ht-1.25m spr-1.25m] Zones 3-8 ▶

A compact, early blooming, heat tolerant selection with attractive greenish-red foliage all season. Blooms open creamy white in early summer, turn pink in mid-summer, becoming deep red in fall. A beautiful accent, foundation or border shrub for the garden.

C3

Hydrangea quercifolia

Oakleaf Hydrangea

[ht-3m spr-3m] Zones 5-9 ▶●

A spectacular large shrub, oak leaf shaped foliage, erect white blooms.

Hydrangea quercifolia 'Munchkin'

Munchkin Oakleaf Hydrangea

[ht-1m spr-1m] Zones 5-9 ▶●

Munchkin Hydrangea features bold fragrant conical white flowers with pink overtones at the ends of the branches from late spring to mid summer. The flowers are excellent for cutting. It has dark green foliage which emerges grayish green in spring. The large lobed leaves turn an outstanding brick red in the fall.

Hydrangea quercifolia 'Pee Wee'

Pee Wee Oakleaf Hydrangea

[ht-1.25m spr-1m] Zones 5-9 ▶●

Very similar to hydrangea quercifolia but smaller and more compact growing. Good specimen or accent plant for foundation or other locations near homes or patios. Group or mass in shrub borders or open woodland areas. Good informal hedge.

Hydrangea quercifolia 'Ruby Slippers'

Ruby Slippers Oak Leaf Hydrangea

[ht-1.25m spr-1.5m] Zones 5-9 ▶●

Ruby Slippers is cross between Pee Wee and Snow Queen Hydrangea, compact growing, flowers emerge white, but quickly fade to pink finally maturing to a ruby-red colour. Good specimen or accent plant for foundation or other locations near homes or patios. areas. Good informal hedge. Group or mass in shrub borders or open woodland.

PHYSOCARPUS

FOR TREE FORM PLEASE SEE PAGE 46

Physocarpus opulifolius

Common Ninebark

[ht-2m spr-2m] Zones 3-9 ○▶

Native, spreading shrub with lush green leaves, clusters of white flowers from spring to early summer, good for dry areas, acid and alkaline soils.

40 cm C3

50 cm C3

60 cm C3

80 cm C3

Physocarpus opulifolius 'Burgundy Candy'

Burgundy Candy Ninebark

[ht-1m spr-1m] Zones 3-9 ○▶

Rich burgundy foliage is persistent from spring until fall. White blooms in spring. Compact habit is excellent for foundation and shrub border use. A low-water needs variety, thrives in nearly every condition. Tolerant of mildew.

C3

Physocarpus opulifolius 'Coppertina'

Coppertina Ninebark

[ht-2m spr-2m] Zones 3-9 ○▶

A new cross between Dart's Gold and Diabolo that flushes an attractive copper in spring and transforms to a rich red in summer. Soft pink flowers line the gently arching branches in early summer. This durable, cold-hardy plant does well in exposed sites. Good in groupings and mass planting, perennial and shrub borders.

C3

Physocarpus opulifolius 'Dart's Gold'

Dwarf Golden Ninebark

[ht-1m spr-1m] Zones 3-9 ○

A dwarf form of the golden ninebark, yellow foliage provides contrast, small white flowers are followed by red fruit. Tolerates heat, drought and alkaline soil.

Physocarpus opulifolius 'Luteus'

Golden Ninebark

[ht-2m spr-2m] Zones 2b-9 ○

Bright yellow foliage changes to golden-brown in summer with white flowers followed by red seed pods.

50 cm C3

60 cm C3

80 cm C3

Physocarpus opulifolius 'Monlo'

Diabolo Ninebark

[ht-2.5m spr-2.5m] Zones 5-9 ○

Intense reddish-purple foliage on upright arching branches, provides excellent colour contrast when used as border, hedge or screen, has clusters of creamy-white flowers in summer.

40 cm C3

50 cm C3

60 cm C3

80 cm C3

Physocarpus opulifolius 'Seward'

Summer Wine Ninebark

[ht1.5m spr-1.25m] Zones 4-9 ○

Upright and compact in shape, dark purple foliage spring to fall, pink-white flowers in mid-summer contrast against the dark purple foliage.

C3

Physocarpus opulifolius 'Tiny Wine'

Tiny Wine Ninebark

[ht-1m spr-1m] Zones 3-9, ○

This ninebark is extra bushy, with small, refined leaves. Foliage is dark bronze-maroon all season, contrasts very nice with the white flowers in late spring. Spring flower show is excellent with dainty flowers up and down the stems.

C3

POTENTILLA

Potentilla fruticosa 'Abbotswood'

Abbotswood Cinquefoil

[ht-80cm spr-1m] Zones 3-9 ○

Excellent shrub with masses of bright white summer flowers, use for borders, massing or as an accent plant.

Potentilla fruticosa 'Annette'

Annette Cinquefoil

[ht-1m spr-1m] Zones 3-9 ○

Large orange-yellow flowers in the summer, use for border or accent.

Potentilla fruticosa 'Goldfinger'

Goldfinger Cinquefoil

[ht-1m spr-1m] Zones 2-9 ○

A versatile small shrub, large rich yellow butter-cup like flowers in the summer, mounding form, use for colourful accent in shrub borders.

○ Full Sun ► Part Shade

● Full Shade

Potentilla fruticosa 'Pink Beauty'

Pink Beauty Cinquefoil

[ht-1m spr-1m] Zones 2-9 ○

Has semi-double bright pink flowers with continuous bloom, fine textured dark green foliage, use for perennial and shrub borders.

Potentilla parvifolia 'Farreri'

Gold Drop Cinquefoil

[ht-60cm spr-60cm] Zones 2-9 ○

Small shrub, lemon yellow flowers in the summer, dark green foliage, use for borders or foundation plantings.

40 cm C3

60 cm C3

80 cm C3

SALIX

Salix bebbiana

Beaked Willow

[ht-5m spr-10m] Zone 2-9 ○

Native, foliage is silvery-grey to green with cone-like fruit and attracts birds.

Salix candida

Sage-Leaf Willow

[ht-2m] Zones 1-9 ○

Native, erect growing shrub, foliage is dark green, glossy red-brown stems, suited for moist, sandy, peaty or marshy ground

Salix caprea

Goat Willow

[ht-4m spr-4m] Zones 4b-9 ○

Likes wet soils, produces large catkins followed by golden-yellow stamens.

Salix cordata

Heart Leaf Willow

[ht-2m] Zones 2-9 ○

Native, stems are white and silky when young, green finely serrated leaves have paler undersides.

Salix discolor

Pussy Willow

[ht-6m spr-1.5m] Zones 2-9 ○

Native, hardiest of the pussy willows, silvery catkins appear before leaves.

Salix eriocephala

Heartleaf, Diamond Willow

[ht-5m] Zones 5-9 ○

Native, shrubby multi-stem willow, green foliage, orange to yellow catkins, excellent for erosion control.

Salix exiqua

Sandbar Willow, Coyote Willow

[ht-3m] Zone 2-9 ○

Native, spreading by underground stolons, suitable for around ponds, riverbanks and sand beaches.

Salix fragilis

Crack, Brittle Willow

[ht-25m] Zones 5-9 ○

Native, dark green foliage, branches are brittle at the base, catkins appear in May-June, likes moist soil and low areas, i.e. streams, rivers and edges of lakes.

Salix lucida*Shining Willow***[ht-6m] Zones 3-9** ○

Native, foliage is dark green, yellow to red-brown shiny stems, young leaves are tinged red, likes wet areas.

Salix melanostachys*Black Pussy Willow***[ht-2m spr-2.5m] Zones 5-9** ○

Rich purple-black catkins stems in winter, in spring male catkins open to deep purple-black with brick red anthers and finally show yellow.

Salix nigra*Black Willow***[ht-20m spr-5m] Zones 3-9** ○

Native, multi-stem shrub, slender branches, dark brown fissured bark.

Salix petiolaris*Slender, Meadow Willow***[ht-3m] Zones 2-9** ○▶

Native, large multi-stem shrub, young branches are purplish, foliage is dark green with grayish undersides, likes moist soils.

Salix purpurea 'Gracilis'*Arctic Willow***[ht-1.25m spr-1.5m] Zones 2-9** ○

Dwarf rounded willow noted for its steely blue foliage on supple purple stems, popular screening plant, use for clipped hedge or specimen.

Salix repens*Creeping Willow***[ht-80cm spr-1m] Zones 2b-9** ○

Silky grey catkins become yellow in mid to late spring, attractive ground cover with good colour contrast.

SAMBUCUS**Sambucus canadensis***American Elder***[ht-3m spr-2.5m] Zones 3-9** ○▶

Native, fast growing shrub, medium green foliage, large yellow-white flowers in early summer, produces purple-black fruit used for jams, jellies and wines.

Sambucus canadensis 'Aurea'*Golden American Elder***[ht-2.5m spr-2.5m] Zones 3-9** ○

Very similar to American Elder but has golden foliage and red fruit.

60 cm C3

80 cm C3

100 cm C3

Sambucus nigra 'Gerda'*Black Beauty Elder***[ht-2.5m spr-2.5m] Zones 5-9** ○▶

A nice addition to the landscape, brilliant black foliage when planted in full sun, large lemon scented pink flowers in the summer months add contrast to black foliage.

50 cm C3

60 cm C3

80 cm C3

Sambucus pubens*Red Berried Elder***[ht-3m spr-2m] Zones 3-9** ○▶

Native, Dark green foliage, upright irregular habit, yellowish-white flowers followed by scarlet-red fruit in June, use for borders or background planting.

50 cm C3

60 cm C3

SORBARIA**Sorbaria sorbifolia***False Spirea***[ht-2m spr-1.5m] Zones 3-9** ○●

Noted for its long panicles of "Astilbe like" white flowers July and August, foliage is dark green prefers moist well drained organic soil.

50 cm C3

60 cm C3

Sorbaria sorbifolia ‘Sem’

Sem False Spiraea

[ht-1m spr-1m] Zones 3-9 ▶

Compact habit, low growing, attractive orange-red foliage in the spring, plumes of white flowers in the summer, use for borders or as a specimen.

40 cm C3

50 cm C3

SPIRAEA

Spiraea alba

Meadowsweet

[ht-1.5m spr-1.5m] Zones 5 ○

Native, branches are erect to spreading and flowers are white, rarely pink.

Spiraea arguta ‘Graciosa’

Garland Spirea

[ht-1m spr-1.25m] Zones 3-9 ○▶

Beautiful weeping shrub with fine leaved foliage and cascades of white flowers in early summer, useful for shrub border or specimen plant.

Spiraea bumalda ‘Anthony Waterer’

Anthony Waterer Spirea

[ht-1.25m spr-1.25m] Zones 2-9 ○▶

Flat-topped heads of rosy-pink flowers cover the top of this shrub in early summer, foliage is bright green, new foliage growth is reddish purple, useful in the foreground of shrub borders.

Spiraea bumalda ‘Crispa’

Crisp Leaf Spirea

[ht-1m spr-1m] Zones 3-9 ○▶

Similar to Anthony Waterer but has twisted, strongly serrated leaves, 3” rose pink flower clusters in early summer, more compact than Anthony Waterer.

Spiraea bumalda ‘Frobelli’

Frobel’s Spirea

[ht-1.25m spr-1.25] Zone 2b-9 ○

Naturally rounded form, new growth is purplish green, bright pink flowers in flat clusters in late spring.

Spiraea bumalda ‘Goldflame’

Goldflame Spirea

[ht-1m spr-1.25m] Zones 2b-9 ○

Bronzy new growth in the spring matures to soft yellow green in summer accenting the crimson flowers, fall colour is coppery-orange.

Spiraea bumalda ‘Goldmound’

Goldmound Spirea

[ht-1m spr-1.25m] Zones 4-9 ○

Compact shrub, bright yellow foliage through the summer, light pink flowers in late summer. For a formal appearance shear annually after flowering.

Spiraea japonica alpina ‘Nana’

Dwarf Alpine Spirea

[ht-25cm spr-80cm] Zones 4-9 ○

Dwarf, spreading mounds of finely textured blue-green foliage on slender branches holding masses of showy pink flowers, can be used as ground cover.

Spiraea japonica ‘Little Princess’

Little Princess Spirea

[ht-60cm spr-1m] Zones 4-9 ○

In summer, dainty clusters of rose pink flowers create pleasing contrast against mint green foliage. Has a neat compact form and fits nicely into shrub borders.

Spiraea japonica ‘Macrophylla’

Japanese Spirea

[ht-1.5m spr-1.5m] Zones 4-9 ○

Small flowers but large leathery green foliage turning to a mix of yellow, orange and red colours in the fall.

○ Full Sun ▶ Part Shade

● Full Shade

Spiraea japonica 'Flaming Mound'

Flaming Mound Spirea

[ht-80cm spr-1m] Zones 4-9 ○

Foliage is green to red burgundy with long lasting showy pink flowers. Dwarf version of Goldflame Spirea.

Spiraea japonica 'Neon Flash'

Neon Flash Spirea

[ht-1m spr-1m] Zones 4-9 ○

Large variety with carmine red flowers, bright new growth is shaded with purple that turns deep green, flowers early to late summer.

Spiraea japonica 'Shirobana'

Shirobana Spirea

[ht-80cm spr-1m] Zones 3-9 ○

Small shrub with bright green leaves on slender stems, from red buds white and pink bloom clusters cover this dwarf dense mounded Spirea, use for border accent or specimen.

Spiraea japonica 'Walbuma'

Magic Carpet Spirea

[ht-50cm spr-80cm] Zones 3-9 ○

Dwarf, bright gold foliage accented by red leaf tips which change to russet tones in the fall, spring flowers are deep pink purple, this low spreader is ideal filler or groundcover.

Spiraea nipponica 'Halward Silver'

Halward's Silver Spirea

[ht-1m spr-1m] Zones 4-9 ○

Compact rounded shrub, cover with cascading white flowers in the spring has dark green foliage and dense branching, use for mixed shrub/perennial plantings.

Spiraea nipponica 'Snowmound'

Snowmound Spirea

[ht-1.25 spr-1.25m] Zones 3-9 ○

Compact mounded shrub with graceful spreading arching branches of deep green foliage, displays a profusion of small clusters of white flowers in the spring, use for borders or specimen. Tolerates dry conditions.

Spiraea trilobata

Dwarf Bridalwreath Spirea

[ht-1.25m spr-1m] Zones 4-9 ○

Profuse blooming shrub, masses of white flowers.

Spiraea vanhouttei 'Renaissance'

Renaissance Bridalwreath Spirea

[ht-2m spr-2m] Zones 4-9 ○

This graceful shrub features masses of pure white flowers on arching branches in late spring, fall colour is vivid orange-red, use for specimen or mass planting.

Stephanandra incisa 'Crispa'

Cut-leaf Stephanandra

[ht-60cm spr-1m] Zones 5-9 ○▶

Low spreading shrub, arching stems which re-root, bright green fern-like leaves, turning reddish-purple in the fall.

40 cm C3

50 cm C3

SYMPHORICARPOS

Symphoricarpos albus

Snowberry

[ht-1.5m spr-1.25m] Zones 2-9 ○●

Native, flowers pink and bears clusters of snow white fruit in the fall, bluish green foliage, good in partial shade and moist locations, excellent erosion control.

Symphoricarpos albus 'Ovatus'

Large Leaf Snowberry

[ht-1m spr-1m] Zones 2-9 ○▶

Similar to Snowberry, but broader leaves and more compact.

Symphoricarpos chenaultii 'Hancock'

Hancock Coralberry

[ht-1m spr-2m] Zones 5-9 ○●

Prostrate growing, has bluish-green foliage, tiny pink flowers, in the fall small pink berries, ideal for bank holding, groundcover and erosion control.

Symphoricarpos orbiculatus

Coralberry / Indian Currant

[ht-1m spr1.5m] Zones 2b-9 ○●

Native, branches arch under the weight of clusters of purplish red coral like berries, berries last well in the winter months, yellowish white flowers with rose blush in early summer excellent for bank stabilization.

GRASSES

Acorus calamus 'Variegatus'

Variegated Sweet Flag

[ht-1m] Zones 4-9 ○▷

Long wide leaves, striking bright green with creamy yellow margins. Excellent for bogs and pond edges.

C1

Andropogon gerardii

Big Blue Stem

[ht-2m] Zones 4-9 ○▷

Native to the prairies, this grass makes an excellent tall screen. Foliage is fine to medium green and slow spreading.

C1

Bouteloua gracilis

Blue Gramma, Mosquito Grass

[ht-40cm] Zones 3-9 ○

Native, low growing, low maintenance grass with blue-green blades and extremely decorative seed heads.

C1

Calamagrostis acutiflora

'Karl Foerster'

Feather Reed Grass

[ht-1m] Zones 5-9 ○

Erect, narrow clumping form. Flowers June to October, will tolerate moist soils.

C1

C2

Calamagrostis arundinacea

'Overdam'

Variegated Feather Reed Grass

[ht-75cm] Zone 5-9 ○

Variegated with pink plumes in early summer.

C2

Carex 'Evergold'

Evergold Sedge

[ht-80cm] Zones 5-9 ○▷

Pendulous creamy-yellow blades with green vertical lines.

C1

Carex glauca

Blue Sedge

[ht-20cm] Zones 5-9 ○▷

Low growing sedge, likes sun or shade, good for massing.

C1

Carex 'Ice Dance'

Ice Dance Sedge

[ht-30cm] Zones 5-9 ▶●

This Japanese selection forms a low, tufted mound of dark green grassy leaves, each edged in bright white. Useful as a groundcover or edging plant in the shade.

C1

Carex 'Silver Sceptre'

Silver Sceptre Sedge

[ht-30cm] Zones 5-9 ▶●

This Sedge has narrow, white-edged leaves that provide a fine texture to break up more dense areas in the garden. It grows to 12" in part to full shade. It is great for the front of the border, in drifts, or just tucked in here and there.

C1

Carex 'Pennsylvancia'

Pennsylvania Sedge

[ht-20cm] Zones 4-9 ○●

Forms a nice ground cover of soft clumps, making it suitable for use as a drought tolerant lawn in shady areas. It greens up early in the spring and grows very well in open woods and woodland margins. Makes a nice soft woodland groundcover. Makes a nice soft woodland groundcover.

C1

Carex buchananii

Buchananii Sedge

[ht-80cm] Zones 5-9 ○▷

Erect, bright, reddish-brown foliage.

C1

○ Full Sun ▶ Part Shade

● Full Shade

Chasmanthium latifolium

Northern Sea Oats

[ht-1m] Zone 5-9 ○▶

Excellent for dried decorated seed beds. Clumping, bamboo-like grass with showy flowers.

C1

Deschampsia caespitosa **'Bronze Veil'**

Bronze Veil Tufted Hair Grass

[ht-1m] Zones ○▶

Plants form a low mound of dark-green leaves, bearing upright stems with clouds of tiny, airy flowers in a bronzy-green shade, maturing to beige. Light and billowing in effect, a wonderful contrast to bold-leaved plants

C1

Deschampsia caespitosa **'Golden Pendant'**

Golden Pendant Tufted Hair Grass

[ht-1m] Zones 4-9 ○▶

Clump-forming tufted grass. Produces masses of frothy, golden yellow flowers in mid-summer. Creates a beautiful mist-like shimmer effect. Easy to grow in sun to partial shade. Will tolerate shadier areas.

C1

Deschampsia caespitosa **'Northern Lites'**

Tufted Hairgrass

[ht-50cm] Zones 5-9 ○

Creamy white variegation that turn pink in cold weather.

C1

Elymus arenarius 'Glauca'

Blue Lyme Grass

[ht-75cm] Zone 4-9 ○

Arching metallic-blue leaves with arching clump.

C2

Erianthus ravennae

Plume Grass

[ht-2.5m] Zones 6-9 ○

Coarse green foliage, upright open form, will grow up to 6' with silvery-white plumes.

C2

Festuca glauca 'Elijah Blue'

Elijah Blue Fescue Grass

[ht-30cm] Zones 5-9 ○

Dwarf, clump forming, silvery-blue foliage.

C1

Hakonechloa macra 'Aureola'

Variiegated Japanese Forest Grass

[ht-50cm] Zones 5-9 ●

Loose weeping, cascading mounds of golden variegated foliage, reddish-pink in the fall. 2009 Perennial of the year.

C1

Hakonechloa macra 'All Gold'

Golden Japanese Forest Grass

[ht-50cm] Zones 5-9 ▶

Slow growing, gold-yellow foliage, blooms late summer to early fall.

C1

Heliototrichon sempervirens

Evergreen Oat Grass

[ht-1m] Zones 4-9 ○

Stiff silvery blue leaves to 30 cm or more, erect panicles of straw coloured spikes in summer.

C1

Imperata cylindrical 'Red Baron'

Japanese Blood Grass

[ht-80cm] Zones 6-9 ○▶

Green upright foliage that turns purple red from tips downward.

C1

Juncus effuses 'Unicorn'

Unicorn Rush

[ht-80cm] Zone 6 ○

Deep green, spiralling tubular stems.

C1

Liriope muscari ‘Big Blue’*Big Blue Lily Turf***[ht-45cm] Zones 5-9** ○▶

This lilyturf cultivar is a tufted, grass-like perennial which features a clump of strap-like, arching, glossy, dark green leaves. Erect, showy lavender blue flowers rise just above the leaves in late summer. Flowers give way in fall to blackish berries which often persist into winter.

C1

Luzula sylvatica*Greater Wood Rush Sylvatica***[ht-30cm] Zone 4** ▶●

Low clump of grass-like evergreen leaves with white flower.

C1

Miscanthus sinensis ‘Adagio’*Adagio Maiden Grass***[ht-1.5m] Zones 5-9** ○▶

Pink inflorescence blooms appear in August turning to white with maturity, thin silvery-grey foliage.

C1

Miscanthus sinensis ‘Gracillimus’*Maiden Grass***[ht-1.5m] Zones 5-9** ○▶

Finely textured grey-green foliage forms a dense upright vase shaped clump, plumes are reddish-pink maturing to beige.

C2

Miscanthus sinensis ‘Gold Bar’*Gold Bar Maiden Grass***[ht-125cm] Zones 5-9** ○▶

Compact, upright growing habit, unique horizontal gold bar stripe. The stripe starts from the base and continues to the top of plant.

C1

○ Full Sun ▶ Part Shade
● Full Shade

Miscanthus sinensis**‘Huron Sunrise’***Huron Sunrise Maiden Grass***[ht-1.5m] Zones 5-9** ○▶

Foliage is green with silver midrib, profuse burgundy blooms in late summer.

C2

Miscanthus sinensis**‘Little Kitten’***Dwarf Maiden Grass***[ht-60cm] Zones 5-9** ○▶

Silvery green foliage, silvery white pink tinged blooms in late summer.

C1

Miscanthus sinensis**‘Morning Light’***Variegated Maiden Grass***[ht-1.5m] Zones 5-9** ○▶

Forms a dense non-invasive clump if in sun or light shade, foliage is creamy white with green midrib, bronze to cream blooms in early fall.

C2

Miscanthus sinensis**‘Purpurascens’***Purple Maiden Grass***[ht-1.25m] Zones 6-9** ○▶

Green foliage, turning reddish in the late summer, white plumes in late summer.

C2

Miscanthus sinensis**‘Sarabande’***Sarabande Maiden Grass***[ht-1.25m] Zones 4-9** ○▶

Has fine grey-green foliage, burgundy plumes in late summer, similar to Gracillimus but shorter in height.

C2

We carry many more varieties not listed in our catalogue. Call to check our availability.

Miscanthus sinensis 'Silberfeder'

Silver Feather Grass

[ht-2.5m] Zones 5-9 ○▶

Downward arching, narrow green, white midrib foliage, large white plumes in late summer.

C2

Miscanthus sinensis 'Strictus'

Porcupine Grass

[ht-1.75m] Zones 6-9 ○▶

Tall growing, similar to Zebra Grass but has an upward habit instead of downward, distinctive yellowish-white horizontal banded leaves, tan coloured plumes in early fall.

C2

Miscanthus sinensis 'Variegatus'

Variegated Silver Grass

[ht-1.8m] Zones 5-9 ○▶

Wide green-white striped leaves, cascading habit, creamy-pink plumes in early fall.

C2

Miscanthus sinensis 'Zebrinus'

Zebra Grass

[ht-2m] Zones 5-9 ○▶

Green leaves, hairy underneath, yellow horizontal bands, red tinted blooms in early fall.

C2

Miscanthus sinensis 'Zwergzebra'

Dwarf Zebra Grass

[ht-1.2m] Zones 5-9 ○▶

Lower growing than the regular Zebra Grass, finer foliage but the same yellow horizontal banded leaves.

C1

Molina caerulea 'Variegata'

Variegated Moor Grass

[ht-60cm] Zones 5-9 ○

A dense, tufted, compact plant with slender upright stems and bright ochre in colour. Leaves are striped dark green and creamy-white. Can be used as a ground cover or edging.

C1

Panicum virgatum 'Cloud Nine'

Cloud Nine Switch Grass

[ht-1.75m] Zones 4-9 ○

A large grass with lovely powder-blue foliage set in a fountain-like form. Produces a large cloud of fluffy, golden flowers in late summer followed by tan seedheads that persist well into winter. Can be grown in full sun to partial shade in almost any type of soil except water logged.

C1

Panicum virgatum 'Dallas Blues'

Dallas Blues Switch Grass

[ht-1.5m] Zones 4-9 ○

This stunning Switchgrass has blue, three-quarter-inch-wide leaves and billowy pink-colored, seed heads making it stand out in the landscape with its striking physical attributes.

C1

Panicum virgatum 'Heavy Metal'

Switch Grass

[ht-1.8m] Zone 4-9 ○

Metallic-blue leaves with a very erect upright habit. Delicate seed heads.

C1

Panicum virgatum 'Prairie Sky'

Prairie Sky Switch Grass

[ht-125cm] Zones 4-9 ○

Arching clumps of steel-blue leaves, bearing airy heads of tiny green flowers in late summer.

C1

We offer complete delivery services, contact our office for your requirements.

Panicum virgatum **‘Ruby Ribbons’**

Red Switch Grass

[ht-125cm] Zones 4-9 ○▶

Blue gray leaves turning to ruby red in late summer.

C1

Panicum virgatum **‘Shenandoah’**

Shenandoah Switch Grass

[ht-1.2m] Zone 4-9 ○

Rich blue-green leaves. Spreads slowly. Airy pinkish panicles in late July. Spacing 120 cm.

C1

Pennisetum alopecuroides

Fountain Grass

[ht-1.2m] Zones 5-9 ○

Clumps of cascading green leaves, flowers are buff coloured.

C1

Pennisetum alopecuroides **‘Hameln’**

Dwarf Fountain Grass

[ht-60cm] Zones 6-9 ○

Has arching foliage, silvery-brown flower spikes in late August.

C1

Pennisetum alopecuroides **‘Little Bunny’**

Little Bunny Fountain Grass

[ht-30cm] Zones 6-9 ○

One of the more dwarf fountain grasses. Flower spikes are white in late summer and dark green foliage forms a dense mound and turns golden russet in the fall.

C1

○ Full Sun ▶ Part Shade
● Full Shade

Pennisetum alopecuroides **‘Red Head’**

Red Head Fountain Grass

[ht-1m] Zones 5-9 ○▶

This new fountain grass has red-hued bottlebrush plumes, a full eight inches long, that emerge in midsummer. The fine-textured blooms extend just above its dark green leaves; foliage forms a rounded, arching habit that brings texture and shape to mixed borders and perennial plantings. When planted in masses, Red Head Fountain Grass creates a dramatic wave of color in the landscape, especially when the wind blows.

C1

Phalaris arundinacea ‘Picta’

Ribbon Grass

[ht-50cm] Zones 6-9 ○

Highly variegated green and white foliage tolerates various soils, withstands drought particularly well.

C1

Phalaris ‘Feeseys Form’

Dwarf Ribbon Grass

[ht-60cm] Zones 6-9 ○

More refined, slender form of the Ribbon Grass, has green and white foliage that is flushed with a pink hue.

C1

Schizachyrium scoparius

Little Blue Stem

[ht-1m] Zones 3-9 ○

Native, grows in hot dry areas, has a narrow upright habit, bright grey-blue foliage that turns red to purple in the fall, flower is a fluffy silver-white.

C1

For larger or special orders
please call, fax, or email
ahead of pick up

Selsleria autumnalis

Autumn Moor Grass

[ht-30cm] Zones 5-9 ○▶

Autumn moor grass is clump-forming ornamental grass, with narrow flower spikes rising above the foliage clump in summer to 18" tall. Flowers give way in autumn to silvery-white inflorescences. Attractive, narrow, yellow-green foliage.

C1

Sorghastrum nutans

Indian Grass

[ht-1.5m] Zones 4-9 ○

Native, very drought tolerant once established, erect forming grass, steel blue foliage, yellow fall colour, seed heads are copper-brown colour.

C1

Spartina pectinata 'Aureomarginata'

Variegated Cord Grass/ Marsh Grass

[ht-200cm] Zone 4 ○

Forms a tall clump of arching dark green leaves with narrow yellow edging. Loose creamy-yellow spikes appear in late summer.

C1

Sporobolus heterolepis

Prairie Dropseed

[ht-60cm] Zone 3-9 ○▶

Native, green foliage with light pink blooms, blooms late summer to late fall, bronze fall and winter foliage.

C1

FERNS

Adiantum pedatum

Maidenhair Fern

[ht-40cm] Zones 4-9 ●

Light feathery foliage, very lush when planted in shade.

C1

C2

Athyrium angustum forma rubellum 'Lady in Red'

Northern Lady Fern

[ht-90cm] Zones 3-9 ○

This selection of the Northern Lady Fern features vibrant burgundy stems contrasting beautifully with the lacy green fronds.

C1

C2

Athyrium filix-femina

Lady Fern

[ht-1m] Zones 6-9 ●

Bright green fronds, thick dense foliage.

C1

C2

Athyrium niponicum 'Godzilla'

Giant Painted Fern

[ht-60cm] Zones 5-9 ●

Undoubtedly named for its size and divine colour! Dark stems hold massive, arching mint and silvery fronds.

C1

C2

Athyrium niponicum 'Metallicum'

Japanese Painted Fern

[ht-50cm] Zones 4-9 ▶●

Unique silvery metallic coloured fronds, useful for borders and massing.

C1

C2

Athyrium niponicum pictum 'Regal Red'

Regal Red Painted Fern

[ht-45cm] Zones 4-9 ●

This selected form of Japanese Painted Fern has arching triangular leaves of silver, with contrasting red stems in each leaflet. It forms a small mound that looks particularly good edging a woodland walkway, in shady borders or even in containers. The perfect companion for Hostas, Coral Bells and other shade-loving perennials.

C1

C2

Athyrium niponicum 'Pictum'

Japanese Painted Fern

[ht-45cm] Zones 5-9 ●

Olive green arching fronds with silver variegation, useful for borders and massing.

C1

C2

Dennstaedtia punctilobula

Hay Scented Fern

[ht-1m] Zones 2-9 ○▶

Hardy fern excellent for mass planting.

C1

C2

Dryopteris marginalis

Marginal Shield Fern

[ht-40cm] Zones 3-9 ▶●

Upright evergreen fronds, a distinctive plant.

C1

C2

Dryopteris erythrosora

Autumn Fern

[ht-60cm] Zones 5-9 ▶

Compact habit, young fronds are coppery-pink.

C1

C2

Matteuccia struthiopteris pennsylvanica

Ostrich Fern

[ht-1m] Zones 4-9 ▶●

Very hardy, tall, upright fern with long lacy fronds prefers rich, deep, woody, moist soil.

C1

C2

Onoclea sensibilis

Sensitive Fern

[ht-1.2m] Zones 5-9 ▶

Fronds are up to 1m, waxy and deeply grooved.

C1

C2

Osmunda cinnamomea

Cinnamon Fern

[ht-1.5m] Zones 3-9 ●

The young fronds are encased in a cinnamon-coloured felt which turns dark green.

C1

C2

Osmunda regalis

European Royal Fern

[ht-90cm] Zones 3-9 ●

This forms a large crown sending out a ring of arching leathery green fronds.

C1

C2

Polystichum acrostichoides

Christmas Fern

[ht-60cm] Zones 3-9 ▶●

Evergreen, deep rich green leathery fronds.

Trollius

Globe Flower ▶

- **'Lemon Queen'**
60cm, pale yellow flwr, Jun-Jul
- **'Orange Princess'**
60cm, bright orange flwr, Jun-Jul
- **'Prichard's Giant'**
45cm, lrg. orange to yellow flwrs, rebloom in September, May-Jun
C1

For larger or special orders please call, fax, or email ahead of pick up.

Veronica

Speedwell ○

- **'Giles Van Hees'**
20cm, dark pink, dwarf, Jul-Aug
- **'Red Fox'**
35cm, rosy red flowers, Jul-Aug
- **'Royal Pink'**
40cm, thick plumes of soft pink flwrs, Jul-Aug
- **'Sunny Blue Border'**
50cm, deep violet blue flwrs., Jul-Sep
- **'White Icicle'**
50cm, white flwrs, Jul-Aug
C1

Viola

Violet ○▶

- **'Purple Showers'**
25cm, large fragrant purple blooms, May-Jul
- **'Starry Night'**
25cm, lavender purple blooms with primrose yellow center, May-Oct
10cm POT

● Full Shade

PLANT TOLERANCES

Different variables may attribute to the tolerancy of plants.

SALT TOLERANT PLANTS

Acer campestre
Acer platanoides and cvs
Amelanchier cvs
Aronia
Betula
Eleagnus angustifolia
Fraxinus americana and cvs
Fraxinus pennsylvanica
Ginkgo biloba and cvs
Gleditisa triac. inermis and cvs
Gymnocladus dioicus
Hamamelis
Hibiscus syriacus and cvs
Hydrangea spp and cvs
Hypericum
Ilex (deciduous)
Magnolia (most)
Myrica
Philadelphus virginialis
Pinus (dwarf types)
Populus spp and hybrids
Potentilla (most)
Prunus cistena
Quercus
Rhus (most)
Ribes alpinum and cvs
Rosa (shrub form)
Salix
Sorbus
Taxodium
Viburnum (some)
Yucca filamentos and cvs

PLANTS TOLERANT TO JUGLANS - WALNUT

Acer palmatum
Acer palmatum dissectum
Acer saccharum
Ajuga reptans
Astilbe spp
Betula nigra 'Heritage'
Campanula carpatica
Catalpa bignoides
Celtis occidentalis
Cercis canadensis
Chrysanthemum spp

Cornus florida
Convallaria majalis
Dicentra spectabilis
Doronicum spp
Echinacea purpurea
Galium odorata
Geranium sanguineum
Hemerocallis spp
Hibiscus syriacus
Hosta spp
Iris sibirica
Juniperus chin. Pfitzeriana
Juniperus virginiana
Kerria japonica
Kerria japonica Pleniflora
Onoclea sensibilis
Osmunda cinnomea
Paeonia spp
Parthencissus quinquefolia
Philadelphus coronarius
Phlox paniculata
Phlox subulata
Picea abies
Populus
Pulmonaria spp
Pyrus calleryana
Quercus alba
Querus rubra
Sambucus canadensis
Thuja occidentalis
Tsuga canadensis
Viburnum lantana
Viburnum carlesii
Vinca minor

PLANTS TOLERANT OF DENSE SHADE

Acanthopanax seiboldiana
Acer campestre
Amelanchier cvs
Arctostaphylos uva-ursi
Aronia
Calycanthus floridus
Cercis canadensis
Clethra alnifolia and cvs
Cornus florida
Cornus racemosa
Cornus sericea

Euonymus fortunei and cvs
Ferns
Hamamelis and cvs
Hedera helix and cvs
Hosta
Hydrangea petiolaris
Hydrangea quercifolia
Kalmia latifolia and cvs
Mahonia aquifolium
Microbiota decussata
Pachysandra terminalis and cvs
Symphoricarpos spp
Taxus and cvs
Thuja occidentalis
Tsuga spp
Viburnum most
Vinca minor and cvs

PLANTS TOLERANT OF MOIST SOILS

Acer rubrum and cvs
Acer saccharinum
Adiantum pedatum
Ajuga reptans and cvs
Amelanchier and cvs
Astilbe and cvs
Athyrium filix-femina
Betula nigra and cvs
Calamagrostis Karl Foerster
Calycanthus floridus
Celtis occidentalis
Clethra alnifolia and cvs
Cornus alba and cvs
Deutzia gracilis and cvs
Dicentra spectabilis
Euonymus coloratus
Fraxinus pennsylvanica and cvs
Gleditsia triac. inermis and cvs
Gymnocladus dioicus
Hamamelis spp
Hemerocallis spp
Hosta spp
Ilex verticillata and cvs
Kalmia latifolia
Miscanthus sinensis and cvs
Myrica pennsylvanica
Nyssa sylvatica
Osmunda cinnomea

Pennisetum alopec. and cvs
Phalaris arundinacea Picta
Platanus acerifolia
Populus spp and cvs
Quercus bicolor
Salix most
Taxodium distichum
Viburnum dentatum
Viburnum lentago
Viburnum trilobum and cvs
Vinca minor

PLANTS THAT TOLERATE POOR, DRY SOILS

Acanthopanax sieboldiana
Acer campestre
Acer ginnala
Acer saccharinum
Berberis thunbergii and cvs
Betula spp and cvs
Celtis occidentalis
Chaenomeles spp and cvs
Cornus racemosa
Corylus colurna
Cotinus coggyria and cvs
Eleagnus angustifolia
Fraxinus pennsylvanica and cvs
Gleditsia triac. inermis and cvs
Gymnocladus dioicus
Hamamelis spp and cvs
Hosta spp and cvs
Juniperus spp
Kolkwitzia amabilis
Myrica pennsylvanica
Parthenocissis spp
Pinus strobus
Potentilla spp and cvs
Rhus
Ribes alpinum and cvs
Rosa rugosa and cvs
Sedum
Viburnum lentago
Yucca filamentosa and cvs

PLANTS NOT RECOMMENDED FOR FALL PLANTING UNLESS CONTAINER GROWN OR SPRING DUG

TREES

Acer rubrum and cultivars
Acer saccharinum and cultivars
Betula and cultivars
Ostrya
Populus and cultivars
Prunus and cultivars
Quercus & cultivars
Salix and cultivars

EVERGREENS

Larix and cultivars
Picea and cultivars
Pinus nigra
Thuja and cultivars
Tsuga and cultivars

See you at Congress 2017

METRIC - IMPERIAL CONVERSIONS

Metric Conversions

Capacity

1 Imperial gal. = 4.5461 litres
 1 litre = 0.219969 Imperial gal.

Volume

1 cu. in. = 16.3871 cu. cm
 1 cu. cm = 0.061024 cu. in.
 1 cu. yd. = 0.76456 cu. m

Lengths

1 in. = 2.540 cm
 1 cm = 0.3937 in.
 1 ft. = 0.3048 m

Area

1 sq. in. = 6.4516 sq. cm
 1 sq. cm = 0.1550 sq. in.
 1 sq. ft. = 0.0929 sq. m
 1 sq. m = 10.764 sq. ft.
 1 sq. yd. = 0.83613 sq. m

Ground Covers (100 Plants Per Flat)

Spaced 4" apart will cover 11 sq. ft.
 Spaced 6" apart will cover 25 sq. ft.
 Spaced 8" apart will cover 44 sq. ft.
 Spaced 10" apart will cover 70 sq. ft.
 Spaced 12" apart will cover 100 sq. ft.
 Spaced 15" apart will cover 156 sq. ft.
 Spaced 18" apart will cover 225 sq. ft.
 Spaced 24" apart will cover 400 sq. ft.
Spacing is figured centre to centre.

Soil & Mulch Coverages

1 cu. yd. will cover 324 sq. ft., 1" deep
 1 cu. yd. will cover 162 sq. ft., 2" deep
 1 cu. yd. will cover 108 sq. ft., 3" deep
 1 cu. yd. will cover 81 sq. ft., 4" deep
 1 cu. yd. will cover 54 sq. ft., 6" deep
 1 cu. yd. will cover 40.5 sq. ft., 8" deep
 1 cu. yd. will cover 27 sq. ft., 12" deep
